

## Manufacturer's declaration

<b>Printing device :</b>	Butterfly valves SBP and SBE,
Description / intended use	ball valves SBV and SBW, Diaphragm valves SDV, Check valves SBC and SSC, Sampling valves SIV and SSB Sight glass fittings SSP and SST Cylinder taps SCP
<b>Manufacturer:</b>	Swissfluid AG
<b>Printing device type:</b>	Pressure-bearing equipment parts
<b>max. permissible pressure PS:</b>	16 bar
<b>Nominal diameter DN</b>	≤25mm
<b>Medium properties according to Art.13:</b>	Group 1 - dangerous
<b>Medium condition :</b>	gaseous or liquid if pD > 0.5 bar
<b>Quality assurance:</b>	none according to Directive 2014/68/EU
<b>Remark:</b>	Fittings up to DN25 are 100% pressure/tightness tested according to EN 12266-1

### Results according to the Pressure Equipment Directive

#### Art. 4 paragraph (3) good engineering practice

- Good engineering practice

The above fittings have been designed taking into account all relevant factors that affect their safety. It is manufactured, tested and supplied with instructions for use so that, when used under foreseeable or reasonably foreseeable conditions, its safety is ensured throughout its intended life.

**According to Pressure Equipment Directive 2014/68/EU Art. 4 Para. (3) CE marking is not possible!**

Place/Date: Lenzburg the **13th . 10 . 2023**
